## COLOR LABEL PRINTER

**NEW!**

### Print Full-Color Labels Fast and On-Demand!

LX910 is Primera's newest and highest quality color label printer. Joining at the nexus of versatility and simplicity, its single cartridge solution for both pigment and dye allows users to print for a wider variety of applications while easing print operations. Printed labels can include photos, graphics, illustrations and text – even high-resolution linear or two-dimensional bar codes. Print labels when and where you need them in just the quantities you can actually use.

### Why Buy LX910?

- Dye and Pigment Inks: Use pigment ink for maximum durability against water and UV light, or dye for the most vibrant colors. Both ink types are interchangeable.
- Print Speed: LX910 exhibits best-in-class throughput at 4.5" per second.
- Print Quality: Banding is virtually eliminated, even on the fastest print speeds.
- Single Ink SKU: Simplify your inventory management by purchasing only one, ultra-high capacity ink cartridge, while swapping ink quickly and easily.
- Low Maintenance: Users get a brand new print head each time they change the cartridge, eliminating the need for costly print head replacements from clogged nozzles.
- Metal Case: LX910 features a tough, steel case with industrial-grade powder-coated paint.

## A Wide Variety of Substrates

LX910 prints onto many different inkjet-qualified label and tag materials, including Primera's exclusive TuffCoat Extreme™ white and clear polyester and white BOPP. Printed labels are highly water, scratch, smudge and tear-resistant. They've been specifically engineered for best-in-class performance with the inks used in Primera's LX-Series Color Label Printers.

Economical water-resistant paper labels are available in high-gloss, semi-gloss and matte finishes. Dozens of popular sizes are in-stock and ready for immediate shipment. Custom sizes are also available.
